Descriptions of New Species of Freshwater Shells collected by Mr. F. G. Waterhouse during J. M'Douall Stuart's Overland Journey from Adelaide to the North-west Coast of Australia ............................. 1863, 414

Descriptions of New Species of Shells from the Australian Seas, in the Collection of G. French Angas 1863, 418

Descriptions of New Species of Shells, chiefly from Australia, in the Collection of Mr. Angas ............ 1864, 35

Adams, Dr. A. Leith.

On a New Fossil Dormouse from Malta ........... 1867, 475

Adams, Henry, F.L.S.

Descriptions of a New Genus and some New Species of Shells from the Collection of H. Cuming, Esq. ... 1861, 143

Description of a New Genus of Shells from the Collection of H. Cuming, Esq. ......................... 1861, 272

Descriptions of some New Genera and Species of Shells from the Collection of H. Cuming, Esq. ........ 1861, 383

Descriptions of the New Species of Land-Shells collected by Mr. A. R. Wallace in the Malayan Archipelago 1865, 414

Descriptions of a New Genus and some New Species of Mollusks .......................................... 1865, 753

List of Mollusks from Formosa ...................... 1866, 146

Descriptions of a New Genus and a New Species of Mollusks .................................................. 1866, 150

Descriptions of Fifteen New Species of Land and Freshwater Shells from Formosa, collected by Robert Swinhoe, Esq., Consul at Taiwan in that island .... 1866, 316

List of the Shells collected by S. W. Baker, Esq., during his recent explorations in Central Africa .... 1866, 375

List of Land and Freshwater Shells collected by Mr. E. Bartlett on the Upper Amazons, and on the River Ucayali, Eastern Peru, with Descriptions of New Species ................................. 1866, 440

Descriptions of Six New Species of Shells, and Note on *Opisthostoma de-Crespignii* .................. 1866, 445

Descriptions of New Species of Shells collected by Geoffrey Nevill, Esq., at Mauritius .................. 1867, 303

Descriptions of New Species of Shells .................. 1867, 307

Further Descriptions of New Species of Shells collected at Mauritius by Geoffrey Nevill, Esq. ........ 1868, 12

Descriptions of some New Species of Land and Marine Shells ........................................ 1868, 14

Descriptions of some New Species of Shells collected by Geoffrey Nevill, Esq., at Mauritius, the Isle of Bourbon, and the Seychelles .................. 1868, 288

Descriptions of some New Species of Shells, chiefly from Ceylon ........................................ 1868, 292

Descriptions of a New Genus and of Fourteen New Species of Marine Shells .............................. 1869, 272

Descriptions of a New Genus and of Eighteen New Species of Mollusks .................................. 1870, 5

Description of a New Species of *Fusus* ................. 1870, 110

List of Additional Species of Land and Freshwater Shells collected by Mr. E. Bartlett in Eastern Peru, with Descriptions of New Species .................. 1870, 374

Descriptions of Ten New Species of Land and Freshwater Shells collected by Robert Swinhoe, Esq., in China and Formosa .......................................... 1870, 377

Descriptions of Two New Species of African Land-Shells ........................................ 1870, 379

Descriptions of Twenty-six New Species of Shells collected by Robert McAndrew, Esq., in the Red Sea 1870, 788

Descriptions of Two New Genera and Five New Species of Shells ........................................ 1870, 793

Descriptions of New Species of Shells, chiefly from the Cumingian Collection .................. 1863, 428
ADAMS, Henry, F.L.S., and ANGAS, George French, C.M.Z.S.

Descriptions of New Genera and Species of Chitonidae from the Australian Seas, in the Collection of George French Angas .......................... 1864, 192

Descriptions of Two New Species of Shells in the Collection of George French Angas .................. 1865, 54

Description of a New Species of Land-Shell belonging to the Genus Cœliaxis, H. Ad. & Angas  .......... 1867, 907

ADAMS, Henry, F.L.S., and BAIRD, William, M.D., F.R.S.

Notes on some interesting Chinese Shells, with a description of Two or Three New Species of Unionidae, collected at Shanghai by Jones Lamprey, M.D., 67th Regiment, C.M.Z.S. .......................... 1867, 489

ALCOCK, Sir RUTHERFORD, C.M.Z.S.

Letter from, referring to his endeavours to procure living specimens of Elaphurus davidianus ......... 1868, 210

Second Letter from, on Elaphurus davidianus ...... 1868, 530

ALDER, Joshua, and HANCOCK, Albany.

Notice of a Collection of Nudibranchiate Mollusca made in India .......................... 1863, 158

ALLMAN, Prof., F.R.S., C.M.Z.S.

On the Characters and Affinities of Potamogale, a genus of Insectivorous Mammals recently discovered in Western Africa .......................... 1865, 467

Supplementary Note on Potamogale velox ......... 1867, 256

ALLPORT, Morton, F.Z.S., F.L.S.

Letter from, on the Introduction of Salmon into Tasmania .......................... 1869, 473

Brief History of the Introduction of Salmon (Salmo salar) and other Salmonidae to the Waters of Tasmania .......................... 1870, 14

Additional Notes on the Introduction of Salmonidae into Tasmania .......................... 1870, 750

On a New Species of *Callene* from the Pulney Hills in Southern India ......................... 1867, 832
Letter from, relating to Animals observed near Annesley Bay ..................................... 1868, 156
Exhibition of Heads of *Rhinoceros keitho* and *Phacochoerus celiani*, and of some Skins of *Hyraxes* ........................ 1869, 432
Exhibition of some rare Indian Birds ............... 1869, 432
Descriptions of New Land and Freshwater Molluscan Species collected by Dr. John Anderson in Upper Burmah and Yunnan ........................................ 1869, 444
On the Species of *Hyrax* inhabiting Abyssinia and the Neighbouring Countries ............... 1869, 638

Bleeker, Dr. P. v., F.M.Z.S.

Conspectus generum Labroidceorum analyticus .... 1861, 408
**Blyth, Edward, C.M.Z.S.**

Notes on some Birds collected by Dr. Jerdon in Sikkim ........................................... 1861, 199

Extract from his Letter respecting *Rhinoceros crocutii*, Gray ........................................ 1861, 306

Exhibition of a tracing of the Outline of a Skull of the adult male *Rhinoceros sumatranus*, transmitted by 1862, 1

Exhibition of Deer—Horns and other Specimens, with Remarks ........................................... 1863, 155

Exhibition of two Rollers ........................................... 1863, 159

Synoptical List of the Species of *Felis* inhabiting the Indian Region and the adjacent parts of Middle Asia ........................................... 1863, 181

Notes on Sundry Mammals ........................................... 1864, 482

Exhibition of some remarkably large horns of the Wapiti Deer (*Cervus canadensis*) .................. 1865, 618

A Note on African Buffalos ........................................... 1866, 371

Remarks on an Indian Quail (*Rollulus superciliosus*) ........................................... 1867, 474

Exhibition of Drawings of the Horns of various Indo-Chinese Species of Deer .................. 1867, 565

Remarks on Two Specimens of Crows from Australia ........................................... 1867, 565

Notes upon Three Asiatic Species of Deer ........................................... 1867, 835

Exhibition of the Skin, Head, and Horns of a Wild Goat from Crete ........................................... 1868, 262

Exhibition of some Horns of Hybrid Chamois ........................................... 1868, 623

Notice of two overlooked Species of Antelope ........................................... 1869, 51

Exhibition of a Pair of Horns of *Strepsiceros imberbis* ........................................... 1869, 58

On the Hybrid between the Chamois and the Domestic Goat ........................................... 1869, 134

**Bowerbank, J. Scott, LL.D., F.R.S., F.L.S., F.Z.S.**

A Monograph of the *Spongillidæ* ........................................... 1863, 440

On *Hyalonema mirabile* ........................................... 1867, 18

Additional Observations on *Hyalonema mirabile* ........................................... 1867, 350

On *Aleyconcellum speciosum* ........................................ 1867, 351

On *Hyalonema lusitanicum* ........................................ 1867, 901

Observations on Dr. Gray's "Notes on the Arrangement of Sponges, with the Description of some new Genera" ................................................................. 1868, 118

A Monograph of the Siliceo-fibrous Sponges.—
Part I. ................................................................. 1869, 66

A Monograph of the Siliceo-fibrous Sponges.—
Part II. ................................................................. 1869, 323

On Dr. Gray's Genus *Theonella* ...................................... 1869, 389

Brady, George Stewardson, C.M.Z.S.

On Sixty-six new or imperfectly known Species of Marine *Ostracoda* ......................................................... 1865, 257

Brandon, Percy.

Letter from, relating to a specimen of the Great Ant-eater ................................................................. 1868, 211

Brazier, John, C.M.Z.S.

Observations on the Distribution of *Bulinus miltocheilus* in the Solomon's Archipelago ........................................ 1869, 162

Notes on an Egg of a Species of *Megapodius* .... 1869, 528

Notes on the Localities of two Species of Land-Shells and three Species of Volutes ................................................................. 1869, 560

List of Species of Cones found in Port Jackson, New South Wales, with Notes on their Habitats and Distribution ................................................................. 1869, 561

Descriptions of Three New Species of Marine Shells from the Australian Coast ......................................................... 1870, 108

Notes on *Gracula krefti* ........................................ 1870, 551

Descriptions of Ten New Species of Land-Shells collected by Mr. W. F. Petterd, of Hobart Town, Tasmania ................................................................. 1870, 659

Notes on two Australian Land-Shells ................................ 1870, 662

On a Collection of Birds from the Pelew Islands .. 1868, 4
Additional Notes on the Ornithology of the Pelew Islands .................................................. 1868, 116
On a small Collection of Birds from the Tonga Islands ......................................................... 1869, 544
On Lobiospiza notabilis, a remarkable new Finch from the Navigators’ Islands ......................... 1870, 817

Flower, William Henry, F.R.S., F.L.S., V.P.Z.S., Conservator of the Museum of the Royal College of Surgeons and Hunterian Professor.

Memoir on the Brain of the Javan Loris (Stenops javanicus) ........................................ 1862, 103
Notes on the Anatomy of Pithecia monachus (Geoff.) 1862, 326
On the Optic Lobes of the Brain of the Echidna .. 1864, 18
On a Lesser Fin-Whale (Balaenoptera rostrata, Fabr.) recently stranded on the Norfolk Coast ...... 1864, 252
On the Brain of the Red Howling Monkey (Myctes seniculus, Linn.) ..................................... 1864, 335

Notes on the Skeletons of Whales in the principal Museums of Holland and Belgium, with Descriptions of Two Species apparently new to Science ........ 1864, 384

On a New Species of Grampus (Orca meridionalis) from Tasmania ......................................................... 1864, 420

Note on Pseudorca meridionalis ........................................ 1865, 470

On Physalus sibbaldii, Gray .......................................... 1865, 472

Observations upon a Fin-Whale (Physalus antiquorum, Gray) recently stranded in Pevensey Bay .. 1865, 699

On the Gular Pouch of the Great Bustard (Otis tarda, Linn.) ................................................................. 1865, 747

Memoir on the Osteology of the Sperm-Whale. (Part I.) ............................................................. 1866, 81

Exhibition of some Insects taken on board a ship at sea .............................................................. 1866, 305

Memoir on Inia and Pontoporia ........................................ 1866, 426

Exhibition of the Skull of a Tapir (Elasmognathus bairdi, Gill) .......................................................... 1867, 240

Notice of a Memoir on the Osteology of the Sperm-Whale (Physeter macrocephalus) .................. 1867, 823

Notes on the Visceral Anatomy of Hyomoschus aquaticus. ......................................................... 1867, 954

On the probable Identity of the Fin-Whales described as Balaenoptera carolinae, Malm, and Physalus sibbaldii, Gray .......................................................... 1868, 187

On the Development and Succession of the Teeth in the Armadillos (Dasypodidae) ..................... 1868, 378

On the Value of the Characters of the Base of the Cranium in the Classification of the Order Carnivora, and on the Systematic Position of Bassaris and other disputed Forms .................................................. 1869, 4

Note on a Substance ejected from the Stomach of a Hornbill (Buceros corrugatus) .................. 1869, 150

Notice of a Memoir on the White Dolphin (Delphinus sinensis) .................................................. 1869, 430

On the Anatomy of the Proteles, Proteles cristatus
(Sparrman) .......................................................... 1869, 474

Exhibition of the Skull of a Hyrax with abnormal dentition, obtained by Mr. Blanford ................. 1869, 603

Notes on four Specimens of the Common Fin-Whale
(Physalus antiquorum, Gray; Balaenoptera musculus, auct.) stranded on the South Coast of England .... 1869, 604

Exhibition of a Drawing of a Cetacean taken off the Coast of Cornwall ........................................ 1870, 128

Additional Note on a Specimen of the Common Fin-Whale (Physalus antiquorum, Gray; Balaenoptera musculus, auct.) stranded in Langston Harbour, Nov. 1869 1870, 330

On the Anatomy of Aëlurus fulgens, Fr. Cuvier .. 1870, 752

Fraser, Charles, M.A., F.G.S.

Letter from, relating to a Species of Seal (Stenorhynchus) captured in New Zealand .................. 1869, 2

Fraser, Louis, C.M.Z.S.

Exhibition, for Lord Powerscourt, of an enormous pair of Antlers with forty-four points .......... 1862, 142

List of birds captured or observed by Mr. E. Bartlett in the Society's Gardens ....................... 1863, 159

Exhibition of the skull of a Gorilla ......................... 1863, 372

Exhibition of the skin of a Leopard from Japan .. 1863, 510

List of specialities observed in several Zoological Gardens ...................................................... 1864, 159

Exhibition of the Horns of Budorcas taxicolor, Hodgs. 1864, 163

Exhibition of a specimen of Euplocamus praelatus .. 1864, 377

Exhibition of a pair of Horns of Budorcas taxicolor 1864, 377
Fraser, Louis, C.M.Z.S. (continued).

List of Species of Mollusks recently collected by R.
Swinhoe, Esq., in Formosa .......................... 1865, 196
Exhibition of two eggs of the Rose-crested Cockatoo
(Cacatua rossacea) .................................. 1865, 227
Second List of Mollusks collected by R. Swinhoe,
Esq., in Formosa .................................. 1866, 146
Exhibition of a pair of Horns of Cervus mariannus. 1866, 367

Fraser, William T., C.M.Z.S.
Letter regarding the existence of the Rhinoceros
in Borneo ........................................... 1869, 529

Frauenfeld, George, Ritter von.
Descriptions of Seven New Species of the genus
Vivipara, Link ..................................... 1865, 658

On a New Genus and Species of Parrakeet from
Western Australia ................................. 1861, 100
Remarks on a Species of Woodpecker from Siam .. 1861, 182
Description of a New Species of the Family Capri-
mulgidae ........................................... 1861, 182
Descriptions of Two New Species of Humming-
birds belonging to the Genus Hypuroptila ........ 1861, 198
Observations on Epthianura tricolor .............. 1861, 209
Exhibition of a specimen of a Lyre-bird (Menura)
from Port Philip .................................... 1862, 23
Exhibition and Descriptions of two new species of
Humming-birds from Ecuador, of a new Fregilus
from the Himalayas, and a Prion .................... 1862, 124
On a New Species of Chlamydera, or Bower-bird 1862, 161
Descriptions of Sixteen New Species of Birds from
the Island of Formosa, collected by Robert Swinhoe,
Esq., Her Majesty's Vice-Consul at Formosa ...... 1862, 280

Notice of a New Species of Dogania from Asia ... 1862, 265
Exhibition of a specimen of the young of the domestic Fowl, with a singular malformation of the beak and foot.......................................................... 1863, 77
Letter addressed to him by Miss E. M. Smee, relating to the habits of the larva of Phryganea........ 1863, 78
Notice of the Chanco, or Golden Wolf (Canis chanco), from Chinese Tartary .......................... 1863, 94
Notice of a New Species of Chameleon sent from Khartoom by Mr. Consul Petherick .................. 1863, 94
Revision of the Species of Lemuroid Animals, with the Description of some New Species ............. 1863, 129
Descriptions of Two New Genera of Lizards (Holaspis and Poriodogaster) ............................. 1863, 152
Observations on the Box Tortoises, with the Descriptions of Three New Asiatic Species ............... 1863, 173
On the Species of the Genus Sternotrichus, with some Observations on Kinixys ......................... 1863, 192
On the Arrangement of the Cetaceans .................. 1863, 197
On the Eyes of Emydidæ and Batrachia .................. 1863, 202
Description of a New Lizard obtained by Mr. Henry Carter on the South-east Coast of Arabia .......... 1863, 236
Notice of a New Species of Batagur from North-western India ............................ 1863, 253
Gray, Dr. John Edward, F.R.S. &c. (continued).

Description of a New Geoclemmys (*G. callocephalus*) lately living in the Gardens of the Zoological Society 1863, 254

Notes on certain Species of Tortoises from the Asiatic Islands, transmitted to the British Museum by Dr. Bleeker 1864, 11

Notice of a New Squirrel (*Sciurus ornatus*) from Natal 1864, 13

Notes on Seals (*Phocidae*), including the Description of a New Seal (*Halicton richardii*) from the West Coast of North America 1864, 27

Description of a New *Mustela* from Quito 1864, 55

Notes on some Mammalia, with the Description of a New *Golunda*, from Western Africa 1864, 55

Notes on some Lizards from South-eastern Africa, with the Descriptions of several New Species 1864, 58

Notice of a New Species of *Zorilla* 1864, 69

Revision of the Species of *Trionychidae* found in Asia and Africa, with the Descriptions of some New Species 1864, 76

Notes on the Species of Sand-Moles (*Georychus*) 1864, 123

Additional Observations on *Dermatemys*, a Genus of *Emydidaceae* from Central America 1864, 125

Description of a New Species of *Staurotypus* (*S. salvinii*) from Guatemala 1864, 127

On the Genera of *Chelydidaceae* and the Characters furnished by the Study of their Skulls 1864, 128

Notice of a Portion of a New Form of Animal (*Myriosteon higginsii*), probably indicating a New Group of Echinochordata 1864, 163

Note on the Bonnet of the Right Whale 1864, 170

On the Cetacea which have been observed in the Seas surrounding the British Islands 1864, 195

On *Urocerythus*, a New Genus of Gasteropodous Mollusca from Africa 1864, 250
Gray, Dr. John Edward, F.R.S. &c. (continued).

Notice of a New Variety of *Rhodona punctata* from the Swan River ........................................... 1864, 296

Note on *Sternotherus adansonii* from West Afria . 1864, 296

Notice of a New Variety of Galago from Quillimane (*Ototale crassicaudata*, var. *kirkii*) .......... 1864, 456

Note on the Clawed Toads (*Dactylethra*) of Africa 1864, 458

Revision of the Genera and Species of *Chamaeleonidae*, with the Description of some New Species .... 1864, 465

A Revision of the Genera and Species of Viverrine Animals (*Viverridae*), founded on the Collection in the British Museum ................................................................. 1864, 502

Notice of the Atlas and Cervical Vertebrae of a Right Whale in the Museum of Sydney, New South Wales ................................................................. 1864, 587

A Revision of the Genera and Species of Ursine Animals (*Ursidae*), founded on the Collection in the British Museum ................................................................. 1864, 677

Notice of a New Whalebone-Whale from the Coast of Devonshire, proposed to be called *Eschrichtius robustus* ......................... 1865, 40

Revision of the Genera and Species of *Mustelidae* contained in the British Museum ..................... 1865, 100

Extract from a letter addressed to him by Dr. H. Burmeister of Buenos Ayres, on a new species of Whale proposed to be called *Balenoptera patachonica* 1865, 190

Notice of the Skull of a New Species of Bush-Goat (*Cephalophus longiceps*), sent from the Gaboon by M. du Chaillu ......................... 1865, 204

Notice of a New Species of Porpoise (*Phocoena tuberulifera*) inhabiting the Mouth of the Thames.... 1865, 318

Notice of an apparently Undescribed Species of American Porcupine ......................................... 1865, 321

Notice of a Species of *Tupaia* from Borneo, in the Collection of the British Museum ................. 1865, 322
GRAY, DR. JOHN EDWARD, F.R.S. &c. (continued).

Notice of a New Genus and Species of the Family *Trionychidae* from Western Africa .................. 1865, 323

Descriptions of Two New Species of Whales ............... 1865, 357

Revision of the Genera and Species of Entomophagous Edentata, founded on the Examination of the Specimens in the British Museum ........... 1865, 359

Extract of a Letter from E. L. Layard concerning a new Zebra .................................. 1865, 417

On the Development of the Sternal Callosities in *Cyclanosteus senegalensis*, and on the Synonyms of *Cyclanosteus* and the allied Genera .................... 1865, 422

Notice of a New Species of Australian Sperm-Whale (*Catodon krefftii*) in the Sydney Museum .... 1865, 439

A Revision of the Genera and Species of Amphisbaenians, with the Descriptions of some New Species now in the Collection of the British Museum ...... 1865, 442

Notices of a New Genus of Delphinoid Whales from the Cape of Good Hope, and of other Cetaceans from the same Seas ................................ 1865, 522

Descriptions of Two New Genera of Lizards from Damaraland .................................. 1865, 640

A Revision of the Species of Golden Moles (*Chrysochloris*) ........................................ 1865, 678

Note of the Habits of the Kinkajou (*Cercoleptes caudivolvidus*) .................................. 1865, 680

Supplementary Notes on the *Mustelidae* .................. 1865, 680

Notice of *Rhodophyton*, a New Genus of Alcyonacea, found on the Coast of Cornwall ........... 1865, 705

Short Account of part of a Skeleton of a Finner Whale, sent by Mr. Swinhoe from the Coast of Formosa .................................................. 1865, 725
Gray, Dr. John Edward, F.R.S. &c. (continued).

Extract from a letter from Prof. W. Lilljeborg, For. Memb., on the skeletons of Whales in the Jardin des Plantes .................................................. 1865, 730

Notice of some New Species of Spider Monkeys (*Ateles*) in the Collection of the British Museum ... 1865, 732

Notice of some New Species of Marmoset Monkeys (*Hapale* and *Midas*) .......................... 1865, 733

Descriptions of Three Species of Dolphins in the Free Museum of Liverpool .................. 1865, 735

Notices of some apparently Undescribed Species of Sapajous (*Cebus*) in the Collection of the British Museum ................................................................. 1865, 824

Description of Two New Forms of Gorgonioid Corals 1866, 24

A Revision of the Genera of Pteropine Bats (*Pteropidae*), and the Descriptions of some apparently Undescribed Species ........................................ 1866, 62

A Revision of the Genera of *Rhinolophidae*, or Horseshoe Bats .................................. 1866, 81

Exhibition of a series of Glass Models of *Actiniae* ................................................... 1866, 105

Revision of the Genera of *Phyllostomidae*, or Leaf-nosed Bats ................................. 1866, 111

Notice of the Examination of the Type Specimen of *Aëllò cavieri* of Leach .................... 1866, 147

Notice of a New West-African Monkey living in the Gardens of the Society ....................... 1866, 168

Notice of a New Species of *Nasua* ............................................................................... 1866, 169

Notice of a New Species of *Spatangus* ............................................................................ 1866, 170

Notice of an Ape (*Macacus inornatus*) and a Bushbock (*Cephalophus breviceps*) in the Gardens of the Society ................................................................. 1866, 202

Notice of a New Bat (*Scotophilus welwitschi*) from Angola ........................................ 1866, 211

Notes on the Skulls of Dolphins, or Bottlenose Whales, in the British Museum .......... 1866, 211
Notes on some Mammalia from Port Albany (Cape-York Peninsula), North Australia, with the Descriptions of some New Species ........................................ 1866, 219

Notes on some Young Specimens of Tortoises (Testudo) ........................................ 1866, 305

On the Species of Porcupines in the Gardens of the Society and in the British Museum ..................... 1866, 306

On the Skull of the Chinese Pug-nosed Spaniel or Lap-dog ........................................ 1867, 40

On a New Geekoid Lizard from Ceylon .............. 1867, 98

Notes on Hyalonema lusitanicum, and on the Genus in general ........................................ 1867, 117

Additional Note on Corallium johnsoni ................... 1867, 125

On Placospongia, a New Generic Form of Spongiade in the British Museum ..................................... 1867, 127

Notice of Lutronectes whiteleyi, an Otter from Japan 1867, 180

Notes on Zoanthinae, with Descriptions of some New Genera ........................................ 1867, 233

Note on the "Hwang-Yang," or Yellow Sheep of Mongolia ........................................ 1867, 244

Notes on the Skulls of the Cats (Felidae) .......... 1867, 258

Notes on certain Species of Cats in the Collection of the British Museum ..................................... 1867, 394

Notes on the Arrangement of Sponges, with the Description of some New Genera .......................... 1867, 492

Note on a New Species or Variety of Lemur in the Society's Gardens ..................................... 1867, 596

Notes on the Variegated or Yellow-tailed Rats of Australasia ........................................ 1867, 597

Notes on the Specimens of Calyptreidæ in Mr. Cuming's Collection ..................................... 1867, 726

Additional Observations on the Species of Cats (Felidae) in the British Museum .......................... 1867, 874
Gray, Dr. John Edward, F.R.S. &c. (continued).

Notice of a New Species of American Tapir, with Observations on the Skulls of *Tapirus*, *Rhinoceros*, and *Elasmogatorius* in the Collection of the British Museum .......................................................... 1867, 876

Description of *Ateles bartleti*, a New Spider Monkey from the River Amazons ........................................... 1867, 992

Notes on *Catillus*, Humphrey, or *Navicella*, Lamarck, with Descriptions of Two New Genera .... 1867, 993

Description of *Saulea*, a New Genus of *Ampullariidae* from Sierra Leone .............................. 1867, 1000

Observations on Dr. Bowerbank's Paper on *Hyalonema lusitanicum* ............................................. 1867, 1001

Observations on the Preserved Specimens and Skeletons of the *Rhinocerotidae* in the Collection of the British Museum and Royal College of Surgeons, including the Descriptions of Three New Species .... 1867, 1003

Synopsis of the Species of Pigs (*Suidae*) in the British Museum .................................................. 1868, 17

Notice of *Macacus lasiotus*, a New Species of Ape from China, in the Collection of the Society ...... 1868, 60

Observations on the Margined-tailed Otter (*Pteronura sandbachii*) .................................................... 1868, 61

Notice of *Clymene similis*, a New Dolphin sent from the Cape by Mr. Layard ............................ 1868, 146

Notice of a New Species of *Colobus* and of another Monkey from Zanzibar ............................... 1868, 180

Synopsis of the Species of *Saccomyinae*, or Pouched Mice, in the Collection of the British Museum .... 1868, 199

Notice of a Badger from China (*Meles chinensis*), sent by Mr. Swinhoe, H.M. Consul at Amoy, and by Dr. Hartland, from Hongkong .................................................. 1868, 206

Notice of an interesting American Monkey living in the Society's Gardens ........................................ 1868, 256
| Notes on the Fœtus of an Elephant and of a Hippopotamus in the Collection of the British Museum | 1868, 491 |

On the Parrots of the Malayan Region, with Remarks on their Habits, Distribution, and Affinities, and the Descriptions of Two New Species ........... 1864, 272

List of the Land-Shells collected by him in the Malay Archipelago; with Descriptions of the New Species by Mr. Henry Adams ....................... 1865, 405

Descriptions of New Birds from the Malayan Archipelago ........................................ 1865, 474

Wallace, A. R., F.Z.S., and Moore, F.

List of Lepidopterous Insects collected at Takow, Formosa, by Mr. R. Swinhoe ............... 1866, 355

Ward, Edwin, F.Z.S.

Exhibition of a Variety of *Scolopax rusticula* .... 1869, 473

Welch, Francis H., Assistant-Surgeon 22nd Regiment.

Observations on *Lepus americanus*, especially with reference to the Modifications in the Fur consequent on the rotation of the Seasons, and the Change of Colour on the advent of Winter; based on Specimens obtained in the province of New Brunswick, North America ............................................................ 1869, 228

White, Adam, Assistant Zool. Dept., British Museum.

Description of Two Species of Crustacea belonging to the Families *Callianassidae* and *Squillidae* ........ 1861, 42

White, Robert B., C.M.Z.S.

Letters from, concerning the Hairy Tapir (*Tapirus roulini*) of the highlands of Columbia ............... 1870, 51
Williams, J. C., H.B.M. Consul at the Samoan Islands.

Letter from, respecting Didunculus strigirostris . 1863, 102

Williams, William (of Tregullow), F.Z.S.

On the Breeding of a West-Indian Tortoise in this Country ........................................... 1862, 266

Note on the Breeding of an Exotic Tortoise at Tregullow ................................................. 1863, 511

Wood, T. W., F.Z.S.

Remarks on the habits of the Pinnated Grouse (Tetrao cupido) now living in the Society's Gardens. 1862, 153

What, George O.

Extract from a letter of Col. Abbott to ................ 1862, 107

Wucherer, Dr. Otho, C.M.Z.S.

On the Ophidians of the Province of Bahia, Brazil.
(Part I.) .................................................. 1861, 113

On the Ophidians of the Province of Bahia, Brazil.
(Part II.) .................................................. 1861, 322

Description of a New Species of Elapomorphus from Brazil ................................................ 1861, 325

A List of Snakes from Bahia ........................................ 1862, 23

On the species of Craspedocephalus which occur in the Province of Bahia, Brazil ..................... 1863, 51

On the Ophidians of the Province of Bahia, Brazil.
(Part III.) .................................................. 1863, 55
